

# 5th Street Complete Street Project

## BIKE LANE REDESIGN + PUBLIC OPEN HOUSE

In Fall 2018, Midtown Alliance received input from key project stakeholders that the project would be improved by retaining on-street parking and providing more substantial mid-block crossings in the Tech Square area while still achieving safety benefits for pedestrians, cyclists, and scooter riders. The team responded by revising the concept design to address these comments and is now sharing the revised design with the public.
